

Cariola
Wheelbarrow Company Ltd.

Cariola – The Ultimate Wheelbarrow – Strong & Lightweight

Outlasts & Outperforms Construction-Grade/Contractor Wheelbarrows!

Specifications

- ✓ The super tough polyethylene tubs come in two sizes: 7.75 cu.ft. and 6.75 cu.ft.
 - = Front tub supports are unnecessary due to the tub strength
 - = Large pouring mouth for quick & easy dumping of any load
 - = Dirt, cement, asphalt, or whatever – Easy to clean poly tub
- ✓ Choice of a puncture-resistant 16" heavy duty 6-ply studded pneumatic tire with tube or a solid foam tire
 - = Less downtime – Fewer flat tires
- ✓ Heavy gauge steel hub
- ✓ 1" solid steel axle with precision engineered sealed bearings
 - = Carries heavier loads without wobbly tire problems
 - = Ideal center of gravity and tub weight displacement makes the Cariola easier to push and manouever
- ✓ Dual wheel kit option is available
 - = Allows the operator to safely carry a larger load
 - = It will reduce the possibility of tipping the load
- ✓ Extra strong aluminum non-twist frame
 - = No frame shifting or stressing with increased load weight
- ✓ Wide-stance legs with ideal handle separation
 - = Better balance and stability regardless of load
 - = Safer with fewer strains or injuries
- ✓ Plated 3/8" bolts with flanged lock nuts
- ✓ Solid steel nose piece and back brace
- ✓ Steel handle inserts with knurled grips
 - = Less downtime — no wood handles to break
- ✓ Outer dimensions: 63.5"L x 28"W x 30"H with slightly deeper tub on 7.75 cu.ft. model
- ✓ Weight: 53 lbs / 52 lbs

Makers of the Cariola Since 1996!

Via 20 plus years of work-site field-testing & torture-testing by concrete, gravel, masonry, & landscaping contractors — the Cariola is...
